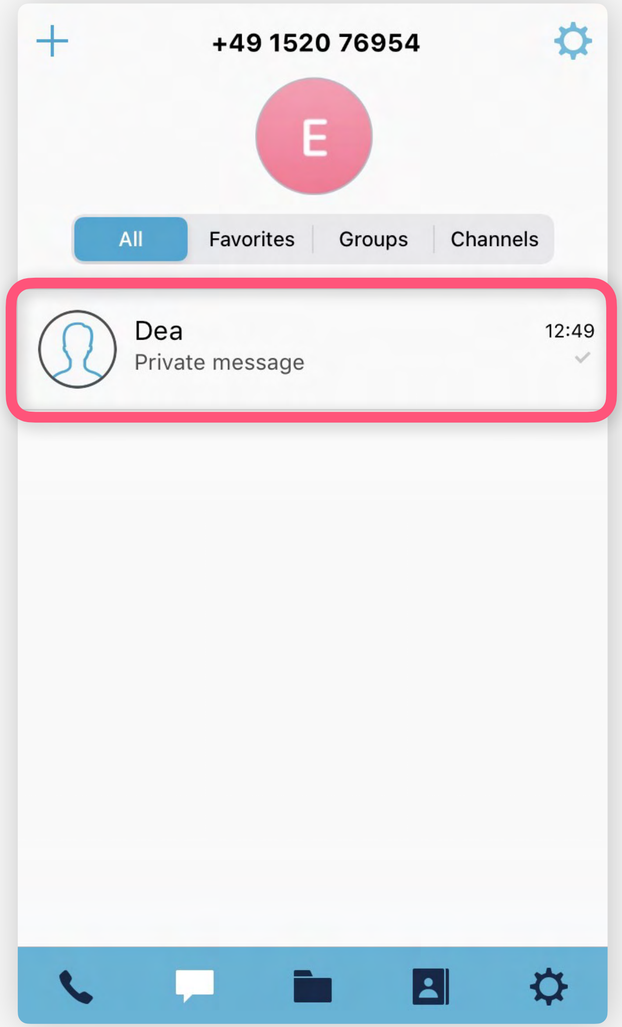
Socializer Messenger

Make a contact private

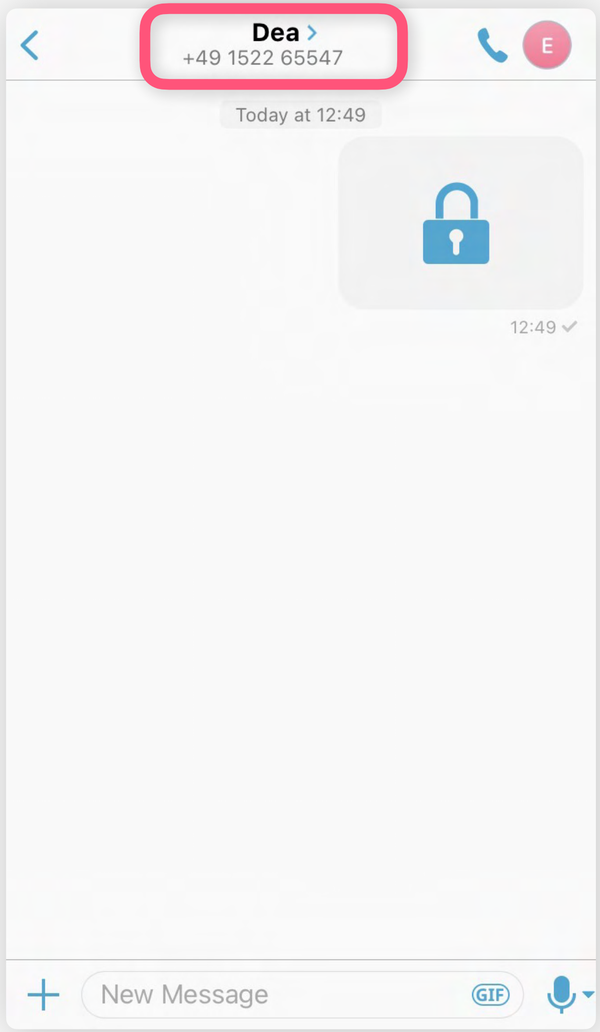
This is an **example** of the many things you can set to private – so only if you authenticate yourself to the app via Face Recognition, it is revealed.

Click here to

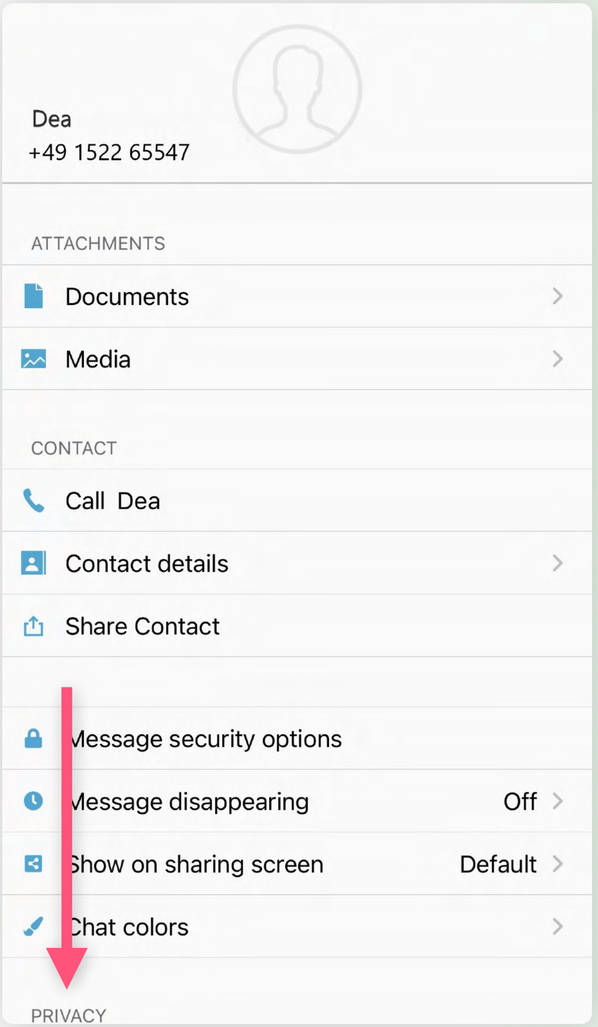
Start



Press on the chat which you want to make private

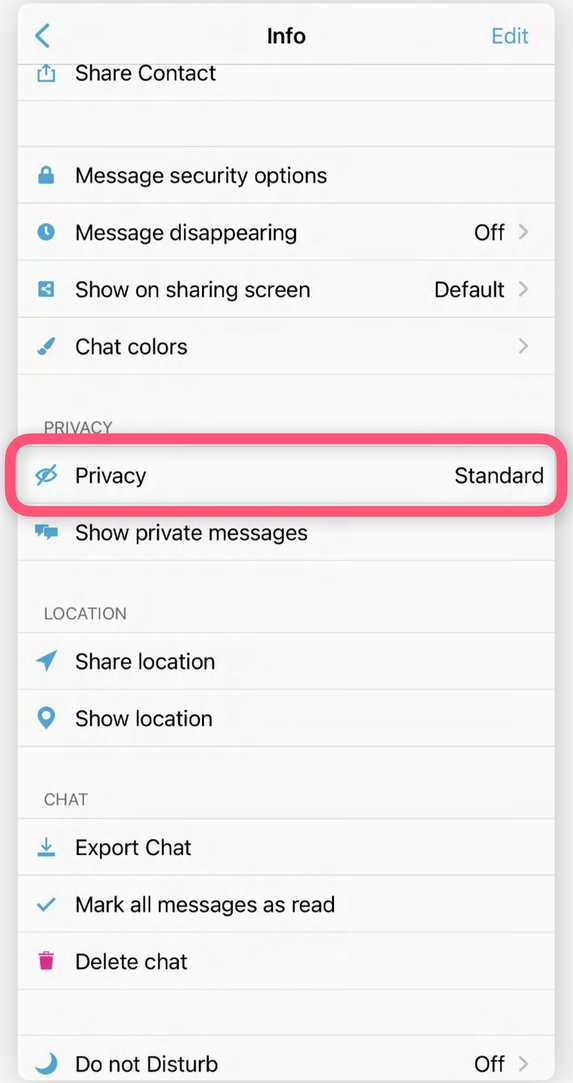


Press the Contact Info

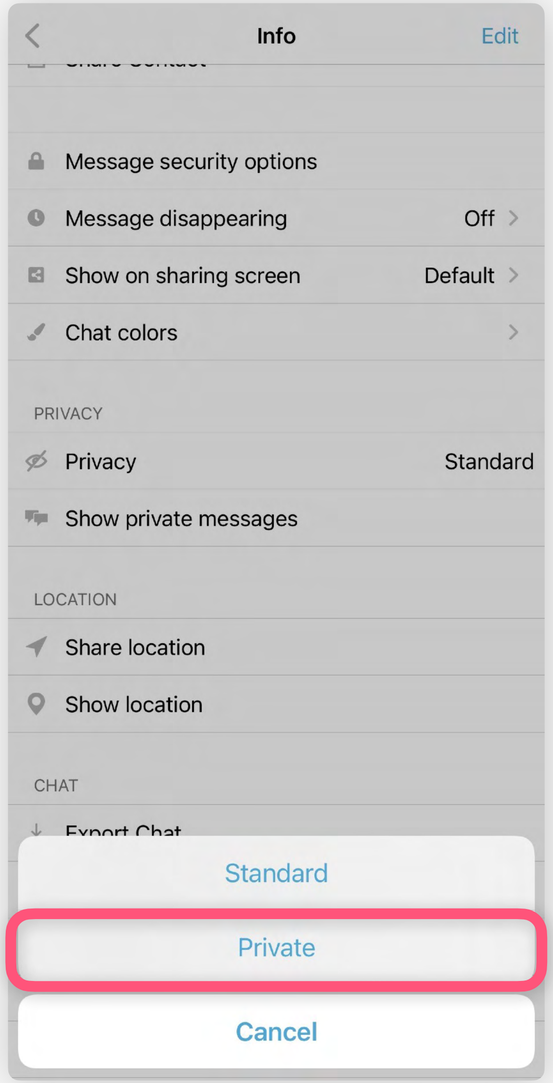


Scroll down to the PRIVACY section

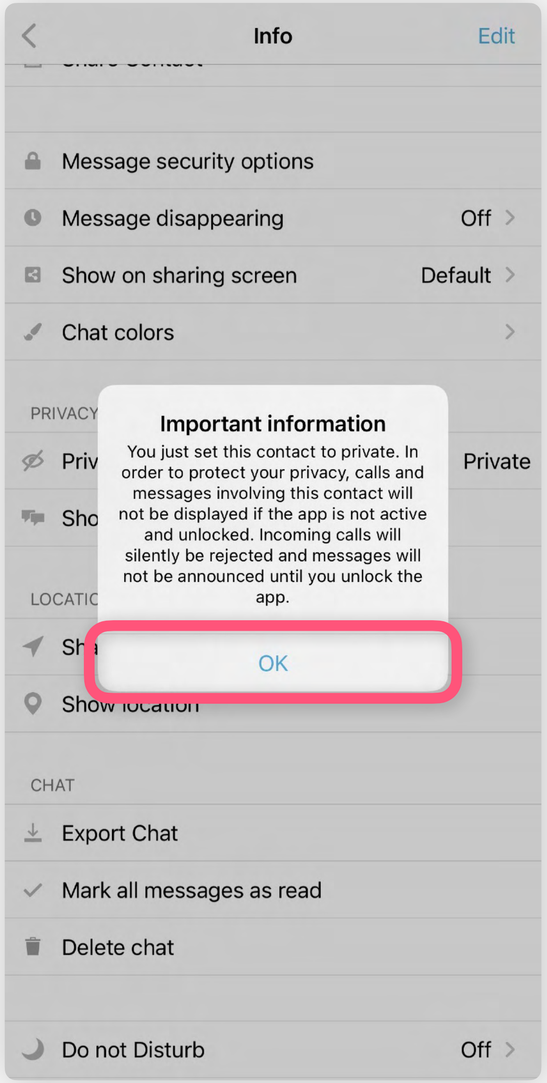
Next



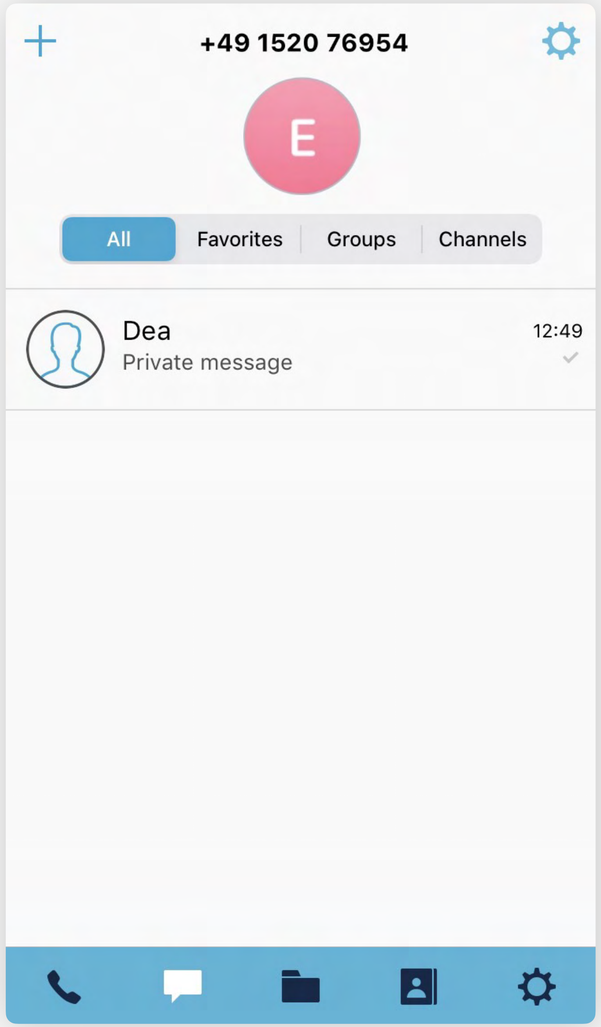
Press **Privacy**



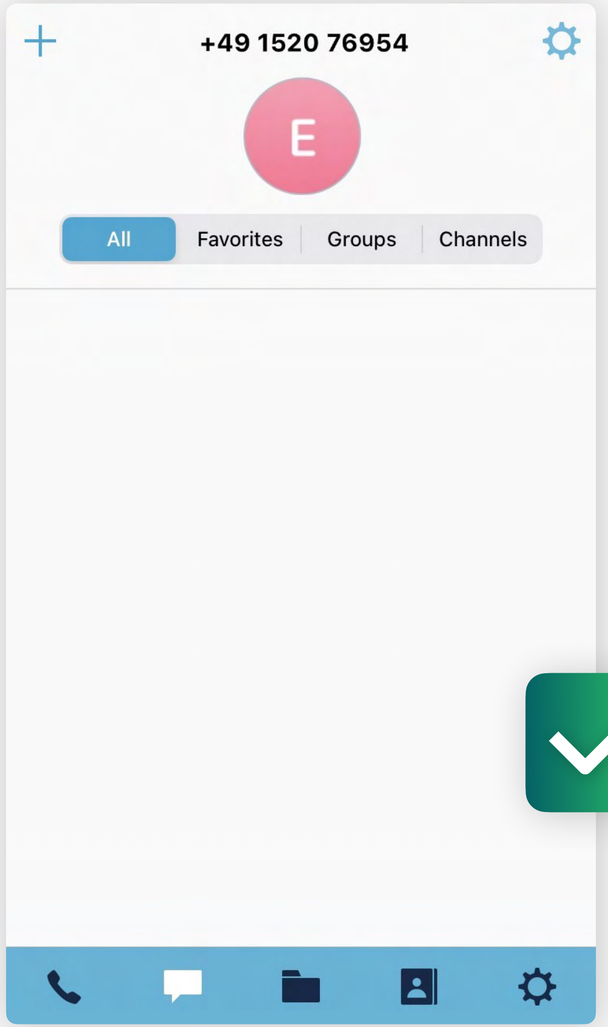
Press **Private**



Press **OK** and then **Next**



All done!
Everything looks like before...



... until someone else looks at your smartphone.

Success!

Now, the chat disappear when the camera detects someone other than you looking at your screen.
