Privacy

Secure your content

Protect your sensitive content with Socializer Privacy. All your contacts, chats and files marked as 'private' will only be visible as long as your face is detected.

Activate

Next

Scroll to the **Privacy** button
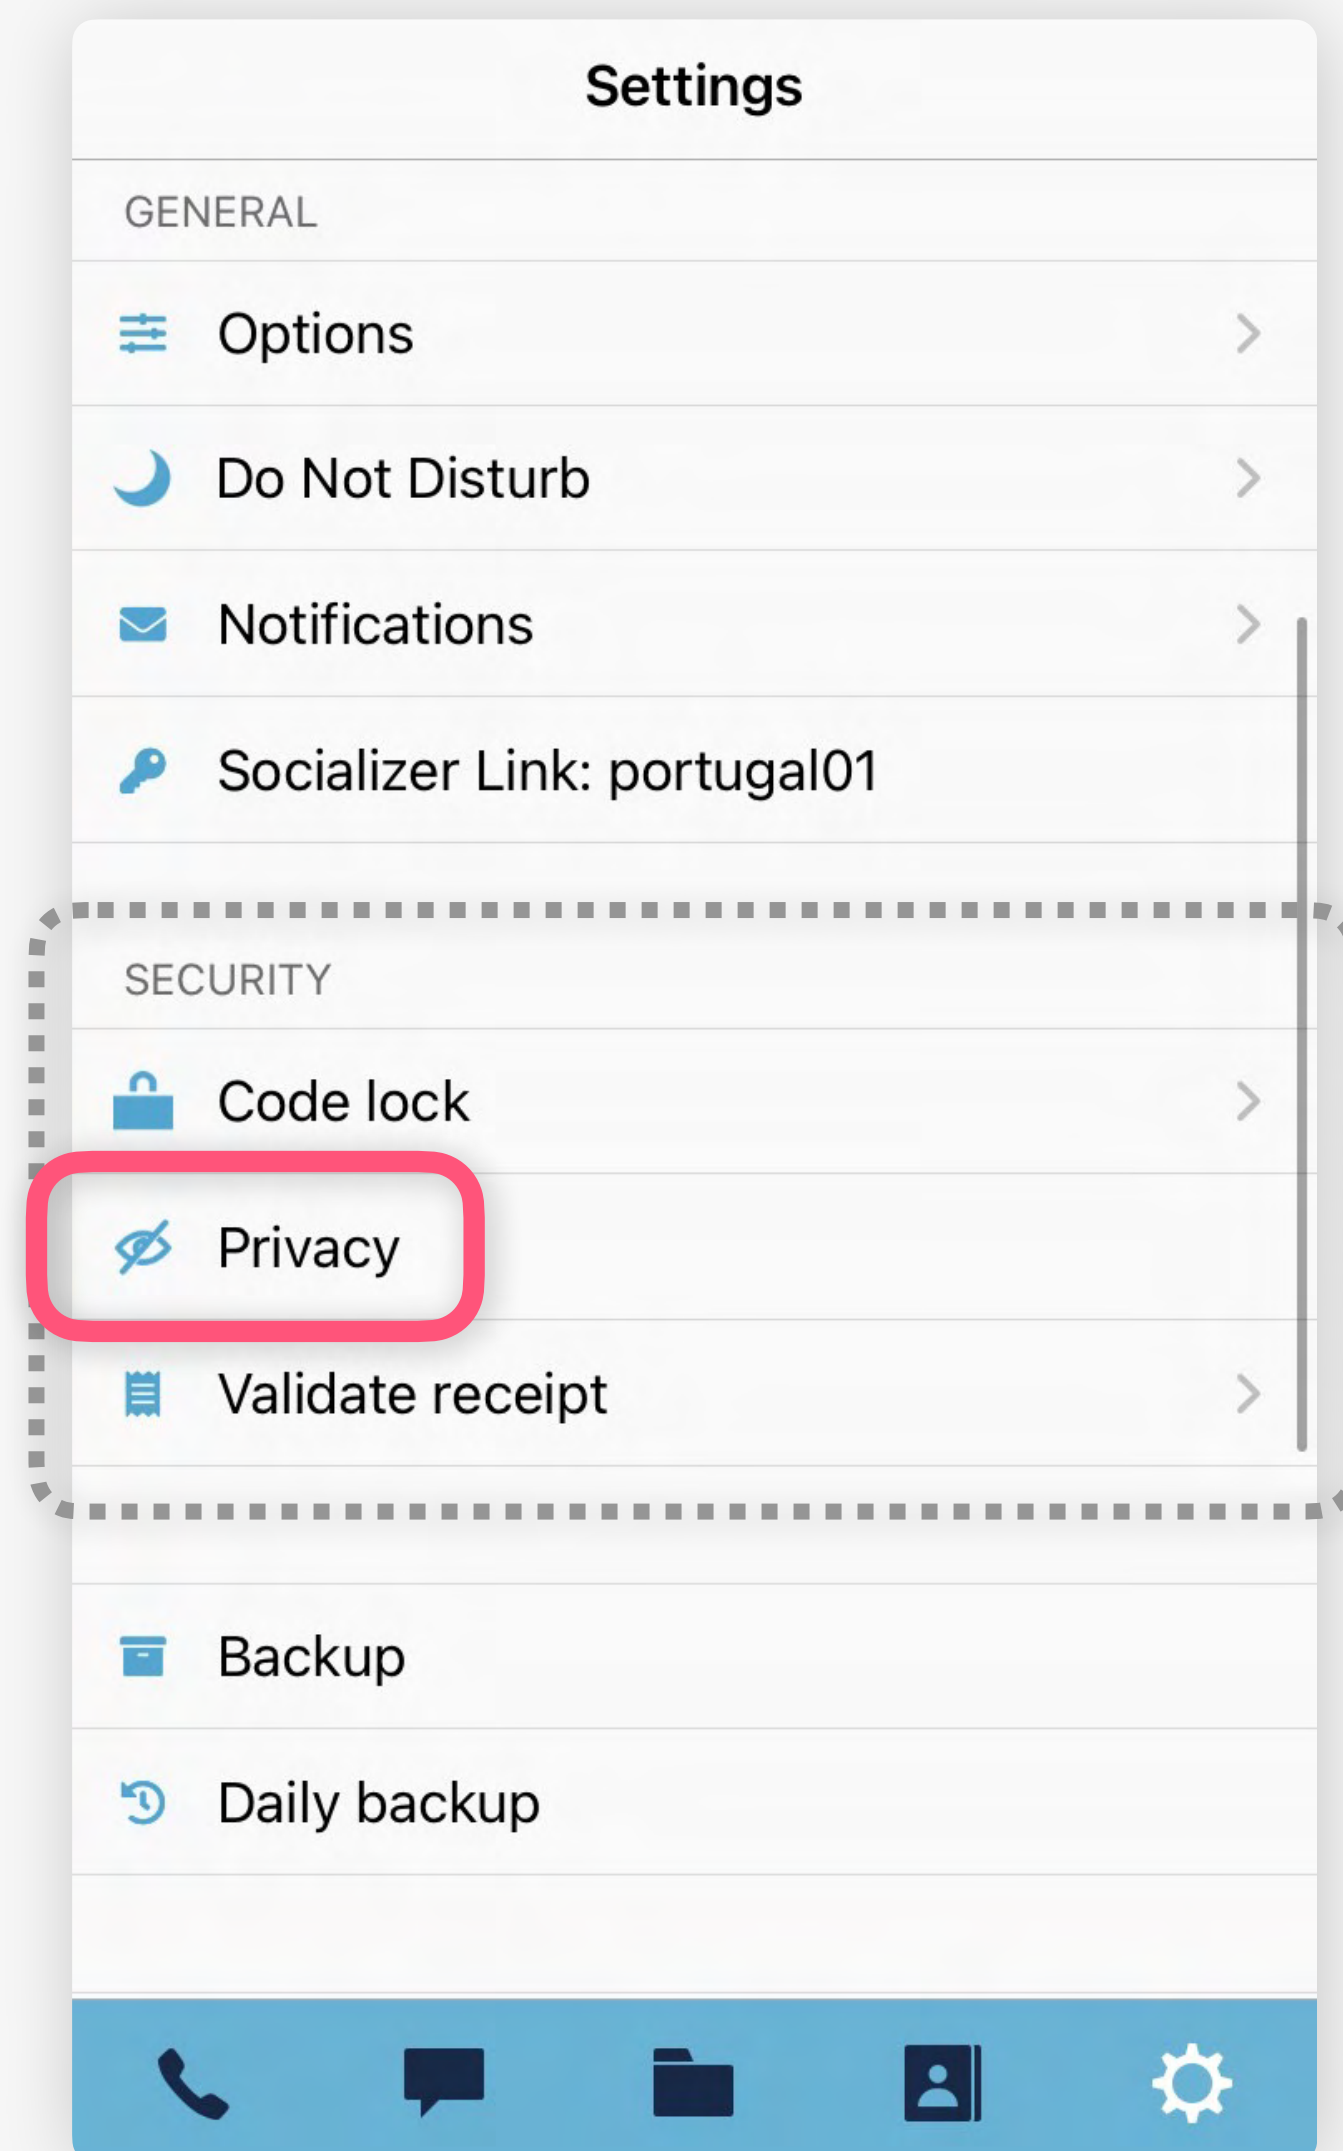

⚠️ You see the button? **Click here**

Press **Privacy**

Press **Activate**

Privacy doesn't appear?

If you can't see the **Privacy** button after the activation of Socializer Link, restart the app and go to settings again.
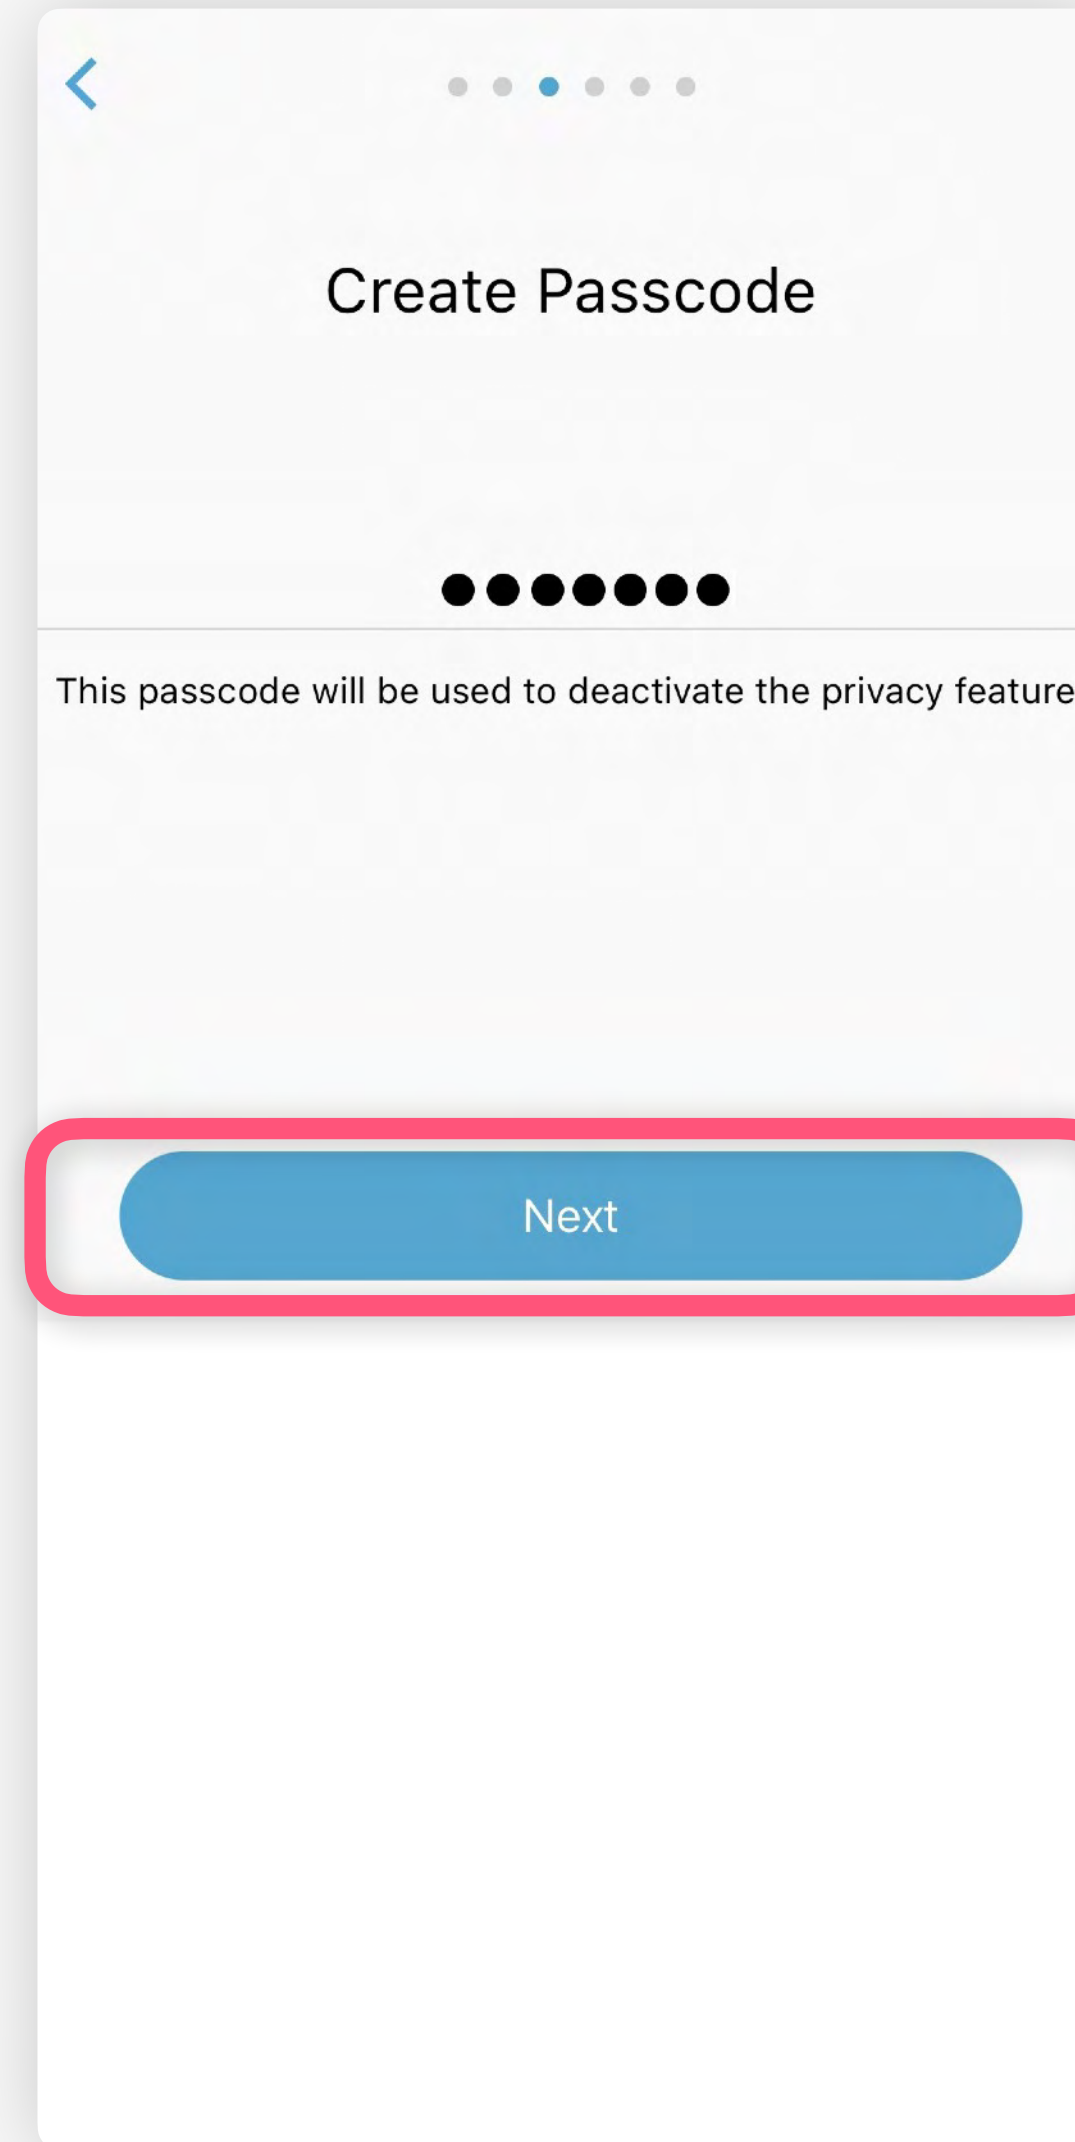

You should now be able to see the **Privacy** button in the SECURITY section.
